

Fig.A1. Index map of the track lines of the seismic reflection surveys. KT group: cruises of R/V Tansei Maru, ORI, L group: J-F KAIKO Project (Leg I cruise: L85 to L108. Leg II cruise; L1 to L34, see KAIKO I Research Group, 1986), 1 to 103 and A to ZB: cruises of R/V Meiyo, MSA, Japan (see Nagano et al., 1977). Track lines of MSA 1 to 43 and ZRW 1 to 73 (Table A1) are omitted. They are approximately located in the area between 138° E and $138^{\circ} 40'$ E, and between $33^{\circ} 40'$ N and $34^{\circ} 40'$ N. For track lines of Lines B to F see Kato et al.(1983) and Shimamura (1986). Solid circles on each lines indicate the location of every 100 shot points.
